MEMORANDUM

Technology Broadcasting Corporation, by its attorneys,
hereby files this Memorandum in response to the presiding
officer's Order released June 23, 1993, addressing the relevance
to this case of the Commission's decision in Open Media
Corporation (FCC 93-301, released June 15, 1993).

1. Concord-Carlisle Regional School District ("Concord")
has proffered an amendment and request for waiver in order to
permit it to upgrade facilities and to accept predicted
interference from the upgraded facilities of Technology
Broadcasting Corporation ("Technology"). Under this proposal,
supported by Technology and by the Mass Media Bureau ("Bureau"),
both applications herein could be granted. Concord's station
would be upgraded from Class D to Class A, and Technology's Class
A station would increase power and reach more listeners. While

an area within Concord's expanded predicted service contour
would, at least theoretically, not receive its signal because of

interference from Washburn's station. That area does not now

applicants will be able to upgrade from a Class D to a full-service Class A station, which will advance a well-established Commission policy. See, Second Report and Order in Docket 20735 44 R.R. 2d 235 (1978), recon. den., 70 F.C.C. 2d 972 (1979).

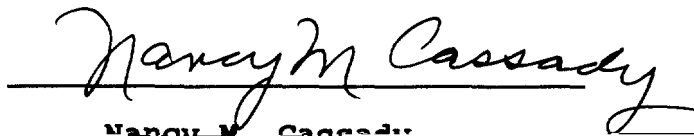

WHEREFORE, the premises considered, Concord's request is not inconsistent with the holding in Open Media and should be granted.
